

GRAPHIC DESIGN  
PROJECT 1

**PROJECT TITLE** Graphic Design Journal

**PROJECT DESCRIPTION** Over the course of the semester you will need to collect samples of graphic design. You may sketch, photograph, cut items from magazines, find scraps of paper on the street, or cut out bits of packaging. Create a two-inch-square sample of each specimen that you find. (Making a viewfinder will help you frame your samples nicely as well as cut them out without measuring.) Arrange your specimens in a simple grid (2 columns, 4 rows, all cells touching.) Complete 8 entries by end of the term.

**EXAMPLE**  
(ONE PAGE = ONE ENTRY)
